

**O**rganic Color Systems is a high performance range of longlasting, permanent hair colors containing certified organic extracts and natural ingredients which create infinite natural tones and exciting fashion colors.

This 100% ammonia-free hair color maintains the hair's essential moisture and protein levels, so the hair is not damaged by the coloring process.

Ammonia degrades the hairs protein structure which can lead to banding, hot roots and colors that fade off tone. With Organic Colors Systems there is no banding or hot roots and colors fade on tone!

Plus, a more pleasant salon experience is created, since are no harmful ammonia fumes that can make breathing difficult or cause eyes to swell and tear. Organic Color Systems also uses the lowest level of PPDs (pigment) possible to effectively color the hair.

## **100% AMMONIA FREE**

**Let Your Imagination Go - *Naturally.***

**No Ammonia. No Parabens. No Plastics.  
No Thioglycolates. No Animal Testing.**
